## **INTRODUCTION:**

This is a program regarding the Water Day and the awareness of the water. We went to visit our slum Pathuvainagar on 22-03-2023 (Wednesday). This program was organized by our group and Health group (Leader Shree Nath). We invite our department PhD scholar MS.T.Thilakavathi as resource person

## **Overview of visit:**

This program starts at around 9.30 am and we gather the people and children in the church. Around the 20 children and 10 adult people. Mr. Shree Nath give the welcome address of this program. He addresses the all gathered people and the village people. Then the Mr. Joseph give the gift to the resource person. Then our resource person start his speech about the water day. She majorly talk about the importance of the water and use of the water how we can save the water. Then she talk about the history of the water day when the water was start and who is initiate the water day. In this event community group also participated and patiently listening the resource persons talk. The people of the pathuvainagar also wonderfully listening the speech. Then we distribute the notice to the people and the children and then Mr. Sanjay Rohith was giving the vote of thanks to the resource person and the people and gathered students. Then we end up the session. Our group students tell about the water day and the importance of the water to the people. Then we go to home visit for the future visit information and tell people to save the water at their home

### **About the resource person:**

The resource person Ms. T. Thilakavathi was doing his Ph.d in Computer science department under the guideline of the Mr.Arockiyam sir (Director of the Mca and Head of the department Data science)

### **Outcome of visit:**

Though this program the people of the pathuvainagar can get the information about the water and get aware and they may save the water in future and the children can under the importance of the water how can use the water in summer days

Shreenath
